What do all of these businesses have in common? The recurrent need to liquidate accumulated accounts receivable. Whether as acquired or distressed assets, loan collateral or sheer backlog, uncollected receivables represent lost business opportunities. Conventional options for liquidation of receivables are costly, complicated and slow.

AR² / Accounts Receivable Accelerated RecoveryTM delivers fast, comprehensive and economical collection of accumulated receivables.

AR² is the efficient way to clear your receivables backlog, liquidate receivables collateral, or integrate acquired receivables. Want to learn more about how AR² can help you? E-mail CCC today, or call your local CCC office for complete information.
